D. O letter no. P-38022/184/2026-STARTUP INDIA **Dated: 24 August 2026**

Dear Sir / Madam,

The undersigned is directed to state that **Entity Locker** is a secure online document storage and sharing platform developed by the **National e-Governance Division (NeGD)**, Ministry of Electronics and Information Technology (MeitY), for business entities and organisations. The initiative aims to further the objectives of Ease of Doing Business and promote digital governance by extending the benefits of DigiLocker to business entities. The platform is accessible at **https://entity.digilocker.gov.in/**.

Entity Locker enables organisations to securely access, store and share their entity-related documents and information in a digital environment. The key features of the platform include verification of entity and related information; access to documents such as **Certificate of Incorporation, GSTIN, Organisation PAN, Udyam Registration Certificate, DPIIT recognition certificate** and other relevant documents; and an **Enterprise Vault** for uploading and securely storing additional organisation-specific documents, including audit reports, minutes of board meetings and board resolutions. The platform also provides enhanced security through **digital signature / e-sign** functionalities.

For **DPIIT-recognised startups**, adoption of Entity Locker can facilitate secure and convenient management of important business documents and enable their digital sharing with relevant stakeholders, including government authorities, regulators, financial institutions and other entities, wherever required. The platform is also expected to facilitate efficient document handling, enhance document security and data protection, enable responsible data sharing based on explicit consent, and mitigate the risk of loss of important documents due to unforeseen circumstances.

In view of the above, **all DPIIT-recognised startups are advised to create an account on the Entity Locker platform** and progressively adopt its features for secure digital management and sharing of their business-related documents. Startups are encouraged to make use of the platform for maintaining and accessing relevant organisational documents and to explore its features as part of their regular digital business operations.

Room No. 202, Vanijya Bhawan, Akbar Road, New Delhi-110001, Tel. : 2303 8927, 2303 8961, E-mail : as-aks@gov.in

NeGD, MeitY shall provide the necessary technical guidance and support to facilitate the onboarding and adoption of Entity Locker by DPIIT-recognised startups.

For any clarification, guidance or technical assistance regarding the implementation and adoption of Entity Locker, the following officers of NeGD, MeitY may kindly be contacted:

i. **Shri Prasoon Kumar**, Senior Manager, NeGD | Email: prasoon.dic@digitalindia.gov.in

ii. **Shri Sahil Rajput**, Assistant Manager, NeGD | Email: rajput.sahil@digitalindia.gov.in

Encl.: SOP for Account Creation

Yours sincerely,

Shri J.L Gupta
